DESCRIBE THE PRESENT AND ORIGINAL (If known) PHYSICAL APPEARANCE

This five story commercial structure is located on the Southwest corner of Franklin and Howard Streets. The Howard Street facade spans two bays; the Franklin street facade, four bays. The building is surfaced in running-bond brick, stone and glass.

The first story is dominated by plate-glass picture windows. Double windows fill the ends of the facade, each over an aluminum sill and framed by ceramic columns. Double glass doors are recessed in the center, under a single transom. A horizontal metal band tops the ceramic pillars, and simple cornice rests atop the band.

Rising from the cornice in each bay is a three story arch. Pairs of massive brick columns with swag-capitals support the jointed stone spandrels. Crowning each arch is an accented keystone, and three decorative wreathes punctuate the upper boarder of the spandrels. Inside the arches are three levels of windows; the lower two are bayed, the upper flush. The first sets consists of tripartite bayed panels, each panel under a single flat panelled transom. Above the transom is a layer of bayed stone panels. The second set, above the store, is similar to the first, with the exception of an additional vertical mullion halving the middle panels and transoms. A bayed stone ledge tops this level. Finally, the upper enclosure of each arch is filled by a set of four part fixed pane flat windows, under a four part transom fitting the curvature of the arch. A thin horizontal stone course tops the entire three story arch grouping.

Above the course are sets of double-hung (1/1 lights) large windows, three to a bay, and separated by projecting brick posts. Surface brick posts frame the windows on either end and in the center.

Finally, a large bracketed wooden cornice tops the structure.

The Franklin Street facade repeats the pattern of the Howard Street facade, with the exception of the ground floor, where tripartite picture windows fill each bay, separated by ceramic posts over an aluminum foundation.
